> Important Notice: Mounting Bolts Are Sold Separately
>
> Pipe floats with diameters of **315, 355, 450, and 500 mm** require **two sets of bolts** for a secure assembly of both halves:
>
> - **Dedicated double set:** Bolt Set for Pipe Floats 315, 355, 450, 500 mm (Double Set) (galvanized steel: 4x bolt M12x80 DIN-931, 4x nut M12 DIN-934, 8x enlarged washer M12 DIN-9021)
> - **Alternative (2 standard sets):** Bolt Set for Pipe Float M12x80 (purchase of 2 sets required)
> - **Marine-grade stainless steel INOX A4 (saltwater):** Stainless Steel INOX A4 Bolt Set for Pipe Float M12x80 (acid-proof AISI 316, purchase of 2 sets required)

Product information "Plastic Float 500 mm"

Technical specifications:
Material: polyethylene

Diameter of cable / pipe holder: 500 mm
External diameter of the float: 1000 mm
Length: 1100 mm
Displacement of the float: 720 kg
Total weight: 50 kg
Closing plug: 22 mm
Screw: M19
Quantity of screws: 4 pieces

The plastic float is made of polyethylene. The ideal solution for piping / cable lines floating on the water. Each plastic float is made of two symmetrical parts, which are mounted directly on the cable or pipe and connected with galvanized screws. The plastic float is adapted to the cable and the pipe so that it can not slip. The orange signal color gives the plastic float a good visibility, even from long distances (other colors on request). The plastic float is suitable for PE pipes, but can also be made to fit a steel pipe.
